## **Milton announces its 2018 full year results**

Milton Corporation Limited (ASX MLT), a long established investor in companies listed on the Australian Securities Exchange, reports growth in dividend income was the main contributor to the 6.2% increase in net profit for the year ended 30 June 2018, which was a record \$130.0 million, or 19.80 cents per share.

Milton is celebrating its 80<sup>th</sup> anniversary of incorporation and its 60<sup>th</sup> year of listing and is pleased to announce the fully franked final dividend has been increased to 10.2 cents per share to bring the full year dividend to 19 cents per share. This is the eighth consecutive increase in full year ordinary dividends.

Milton's managing director, Mr Frank Gooch said, "Fully franked dividends are incredibly important to many of Milton's 25,000 shareholders, particularly those who rely on the increasing fully franked dividend to either help fund their day to day living expenses or to help them save for their retirement. It is therefore especially satisfying to once again increase the full year ordinary dividend."

This result was also boosted by the receipt of special dividends totalling \$1.3 million from Adelaide Brighton, Bank of Queensland, Sims Group and Telstra. It is Milton's practice to exclude special dividends when considering underlying performance as they tend to be sporadic.

Underlying profit for the year increased by 5.6% to \$128.8 million or 19.61 cents per share. Ordinary investment income, such as dividends and trust distributions, received in the year amounted to \$132.5 million. Increases in dividends from over two thirds of the portfolio more than offset disappointing drops in dividends from Milton's investments in the telecommunication sector.

In commenting on the portfolio, Mr Brendan O'Dea, who will succeed Mr Gooch as managing director from 1 August said, "Milton's equity portfolio is not aligned with any stock market index rather it reflects Milton's investment philosophy to invest in quality companies that are expected to grow earnings and dividends over the long term."

During the year the investment portfolio continued to be fine-tuned with positions in 26 companies and trusts increased by a total of \$70 million. The larger investments made were in AGL, Janus Henderson, Technology One and Woodside Petroleum. The increased investment was partly funded by disposals amounting to \$66 million. These included the complete disposals of AMP, BWP Trust, Origin Energy and Fletcher Building.

The Australian market has aggregate valuations that are reasonable relative to earnings, but exhibit a high level of divergence between sectors. As a long term investor, Milton attempts to look through oftentimes transient noise and focus on the expected performance of our investments through the cycle.

“With an MER of 0.14%, Milton is one of the lowest cost professionally managed investment vehicles available to retail investors. When combined with its shareholder return focus, Milton remains very relevant in today’s investing environment where dividends provide a material component of a shareholder’s total return,” Mr O’Dea said.

“Notwithstanding the challenging regulatory and competition conditions in certain sectors, strong global and local economic backdrops provide supportive conditions for equity investing. Milton has a diversified portfolio, currently valued at more than \$3 billion, it has liquid assets of \$160 million and no debt. It is therefore in a sound position to continue to invest in opportunities that will help Milton to grow its dividends to shareholders over time,” Mr O’Dea added.

A further update on market conditions will be provided at Milton’s Annual General Meeting to be held on 11 October 2018.

## BACKGROUND

Milton is a listed investment company that was incorporated in 1938 and listed in 1958.

It invests for the long-term in well managed companies with a profitable history and the expectation of dividend growth, and it has successfully delivered on its key objective which is to pay increasing fully franked dividends per share over the long term. It has paid a dividend every year since listing 60 years ago.

As Milton is internally managed it does not pay any fees to an external manager. With total administration costs representing 0.14% per annum of average total assets it is one of the lowest cost collective investment vehicles in the Australian market place.

The income tax expense for the period is the tax payable on the current year's taxable income based on the current income tax rate applicable for the year adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and any unused tax losses.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability.

Milton Corporation Limited (the parent entity) and its wholly-owned subsidiaries have formed an income tax consolidated group. Each entity in the group recognises its own current and deferred tax, except for any deferred tax assets arising from unused tax losses from subsidiaries, which are immediately assumed by the parent entity. The current tax liability of each group entity is subsequently assumed by the parent entity. There is no tax funding agreement between Milton Corporation Limited and its subsidiaries.

Deferred tax balances attributable to revaluation amounts are recognised directly in equity through the asset revaluation reserve.

**Milton Corporation Limited**  
**Notes to the consolidated financial statements: Key Numbers**  
**for the year ended 30 June 2018**

**e. Offsetting deferred tax balances:**

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities.

Deferred tax assets from realised capital losses are offset against deferred tax liabilities from unrealised capital gains.

Deferred tax liabilities have been recognised for capital gains tax on the unrealised gains in the investment portfolio at current tax rates. As Milton does not intend to dispose of the investment portfolio this tax may not be payable at the amount disclosed in Note 2d above. Any tax liability that may arise on disposal of investments is subject to tax legislation relating to the treatment of capital gains and the applicable tax rate at the time of disposal.

Deferred tax assets relating to carried forward capital losses have been recognised based on current tax rates. Utilisation of the tax losses requires the realisation of capital gains in subsequent years and the ability to satisfy certain tests at the time the losses are recouped. The deferred tax assets related to carried forward capital losses have been offset against the related deferred tax liabilities as disclosed in Note 2d.

	<b>2,931,529</b>	2,763,696
<b>b. Included in unquoted investments are:</b>		
Units in trusts	<b>350</b>	284

Investments are recognised initially at cost and Milton has elected to present subsequent changes in fair value of equity instruments in other comprehensive income through the asset revaluation reserve after deducting a provision for the potential deferred capital gains tax liability as these investments are long term holdings of equity instruments.

Listed investments are valued continuously at fair value, which is determined by the unadjusted last-sale price quoted on the Australian Securities Exchange at the measurement date. Use of unadjusted last sale price in an active market such as the Australian Securities Exchange falls within the Level 1 fair value hierarchy of measuring fair value under AASB 13.

**c. Investments disposed of during the year**

The disposals occurred in the normal course of Milton's operations as a listed investment company or as a result of takeovers or mergers.

Under AASB 11 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures based on rights and obligations arising from the joint arrangement rather than the legal structure of the joint arrangement.

Each joint venture partnership agreement provides that partners have rights to the net assets of the partnership. Accordingly, Milton has assessed the nature of its joint arrangements and determined that all current interests are joint ventures and thus accounted for using the 'Equity Method'.

Under the 'Equity Method', Milton's investments in joint ventures are valued initially at cost and periodically adjusted for changes in value due to Milton's share in the joint ventures' income or losses, distributions and any call payments.

**c. Contingencies and capital commitments**

**Guarantee entered into by the parent company**

Milton agreed to provide a financial guarantee facility totalling \$11 million to support prepayments received by a joint venture in which LWP Huntlee Syndicate No 2 has a 23.75% interest. This facility, which is on commercial terms, is secured by a second ranking mortgage over the real property of the joint venture as well as guarantees provided by other related entities of the joint venture. At 30 June 2018, total facility of \$11m had been utilised (2017: \$11M).

Other than the above, the directors are not aware of any material contingent liabilities, contingent assets or capital commitments as at 30 June 2018.

**Notes to the consolidated financial statements: Capital Management**  
**for the year ended 30 June 2018**

Milton may offer shareholders the opportunity to increase their holdings by participation in the Share Purchase Plan and in the Dividend Reinvestment Plan. Milton may also increase its capital through renounceable rights issues and acquisition of investment companies with the consideration being the issue of Milton shares.

**12. Share capital**

All capital consists of fully paid ordinary shares which are listed on the ASX and carry one vote per share and the right to receive dividends.

## Notes to the consolidated financial statements: Risk for the year ended 30 June 2018

---

This section of the notes discusses Milton's exposure to various risks and shows how these could affect Milton's financial position and performance.

### 14. Critical accounting estimates, judgements and assumptions

Judgements, estimates and assumptions are required to prepare financial statements.

Apart from the items mentioned below, there are no key assumptions or sources of estimation uncertainty that have a risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

- i) Deferred tax liabilities from unrealised capital gains are offset against deferred tax assets from realised capital losses as disclosed in Note 2e.
- ii) Classification of joint arrangements as joint ventures as disclosed in Note 8.

### 15. Management of financial risk

The risks associated with the financial instruments, such as investments and cash, include credit, market and liquidity risks which could affect Milton's future financial performance.

The Audit & Risk Committee has approved policies and procedures to manage these risks. The effectiveness of these policies and procedures is continually reviewed by management and annually by the Audit & Risk Committee.

#### a. Credit risk exposures

Milton's principal credit risk exposures arise from the investment in liquid assets, such as cash, bank term deposits and income receivable.

The risk that financial loss will occur because a counterparty to a financial instrument fails to discharge an obligation is known as credit risk. The credit risk on Milton's financial assets, excluding investments, is the carrying amount of those assets.

Individual bank limits have been approved by the board for the investment of cash.

Income receivable comprises accrued interest and dividends and distributions which were brought to account on the date the shares or units traded ex-dividend.

There are no financial instruments overdue.

All financial assets and their recoverability are continuously monitored by management and reviewed by the board on a quarterly basis.

# Milton Corporation Limited

## Notes to the consolidated financial statements: Risk for the year ended 30 June 2018

---

### **b. Market risk**

Market risk is the risk that changes in market prices will affect the fair value of the financial instrument. The fair value of the quoted investments is determined by the unadjusted last sale price quoted on the Australian Securities Exchange at the measurement date.

Milton is exposed to market risk through the movement of the security prices of the companies and trusts in which it is invested.

The market value of individual companies fluctuates daily and the fair value of the portfolio changes continuously, with this change in the fair value recognised through the asset revaluation reserve.

Investments represent 94% (2017: 94%) of total assets. A 5% movement in the market value of investments in each of the companies and trusts within the portfolio would result in a 4.7% (2017: 4.7%) movement in the net assets before provision for tax on unrealised capital gains at 30 June 2018. The net asset backing before provision for tax on unrealised capital gains would move by 22 cents per share at 30 June 2018 (2017: 21 cents at 30 June 2017).

Milton's management continuously monitors the performance of the companies within its portfolio and makes portfolio recommendations which are considered by the Investment Committee. The Milton board reviews the portfolio on a quarterly basis.

Milton is not directly exposed to foreign currency risk as all its investments are quoted in Australian dollars.

The fair value of Milton's other financial instruments are unlikely to be materially affected by a movement in interest rates as they generally have short dated maturities and variable interest rates.

### **c. Liquidity risk**

Liquidity risk is the risk that Milton is unable to meet its financial obligations as they fall due.

Milton manages liquidity risk by monitoring forecast and actual cashflows.

## **16. Capital risk management**

The parent entity invests its equity in a diversified portfolio of assets that generates a growing income stream for distribution to shareholders in the form of fully franked dividends.

The capital base is managed to ensure there are funds available for investment as opportunities arise. Capital may be increased through the issue of shares under the Share Purchase Plan and the Dividend Reinvestment Plan. Shares may also be issued through renounceable rights issues and as consideration for acquisition of other investment companies.

## Notes to the consolidated financial statements: Group Structure

### for the year ended 30 June 2018

---

#### 17. Subsidiaries

Investments in subsidiaries are carried at net asset value which approximates fair value of the controlled entities.

Income from dividends is brought to account when they are declared.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies.

##### a. Basis of Consolidation

The consolidated financial statements include the financial statements of Milton being the parent entity and its subsidiaries. The balances and effects of transactions between subsidiaries included in the consolidated financial statements have been eliminated in full.

Where entities have come under the control of the parent entity during the year, their operating results have been included in the group from the date control was obtained. Entities cease to be consolidated from the date on which control is transferred out of the group and the consolidated financial statements include the result for the part of the reporting period during which the parent entity had control.

##### b. Milton Corporation Limited's subsidiaries

The following subsidiaries have been included in the consolidated accounts. The parent entity and all subsidiaries are incorporated in Australia:

Percentage of Interest held	2018 %	2017 %
85 Spring Street Properties Pty Ltd	100	100
Chatham Investment Co. Pty Limited	100	100
Incorporated Nominees Pty Limited	100	100
Milhunt Pty Limited	100	100

##### c. Acquisition and disposal of subsidiaries

During the year ended 30 June 2018, Milton acquired 100% of the shares of an unlisted investment company for a consideration of 4,114,776 new Milton shares with a fair value of \$19,117,239 (2017: None).

This unlisted investment company was placed into voluntary liquidation in May 2018 (2017: None).

##### d. Business Combinations

The acquisition method of accounting has been used to account for all business combinations. The business combinations have been accounted from the date Milton attained control of the subsidiaries. The considerations transferred for the acquisitions comprise the fair values of the identifiable assets transferred and the liabilities assumed.

Costs related to the acquisitions, other than those associated with the issue of equity securities, are expensed to the consolidated income statement as incurred.

Mr J.F. Church, who was a non-executive director till October 2017, rented office space from Milton at commercial rates from 1 July 2017 to 31 December 2017 and rental income received by Milton during the financial year was \$6,786 (2017: \$13,377).

**19. Share based payments**

Under the Employee Share Plan, shares are acquired for employees as part of their remuneration and the cost of the shares is recorded under employment costs.

Under the Senior Staff Share Plan, shares are acquired for eligible employees as part of their remuneration and held on their behalf by the trustee of the Plan. The purchase of the Plan Shares is financed by a loan from Milton.

**a. Employee Share Plan**

The Employee Share Plan ("ESP") is available to all eligible employees to acquire ordinary shares in Milton in lieu of a cash bonus of up to \$1,000 per year as part of the employee's remuneration. The transaction and administration costs of acquiring the shares and administering the plan are paid by Milton.

During the year, 216 shares (2017:454 shares) were acquired by Milton on behalf of eligible employees under the ESP at a cost of \$1,039 (2017: \$2,086) with a total market value at 30 June 2018 of \$996.

Any shares acquired cannot be disposed of or transferred until the earlier of 3 years from the date of issue or acquisition or on the date that the employee's employment ceases with Milton.

**Milton Corporation Limited**  
**Notes to the consolidated financial statements: Other Information**  
**for the year ended 30 June 2018**

**b. Senior Staff Share Plan**

The Senior Staff Share Plan ("SSSP") was approved by shareholders at Milton's Annual General Meeting on 9 October 2001. Eligible employees are given the opportunity to apply for Plan Shares in Milton which are subscribed for or acquired and held on their behalf by the trustee of the plan. The purchase of these Plan Shares is financed by an interest-free limited recourse loan from Milton with recourse only to Plan Shares. The loan will be repaid partially from any dividends received. Milton administers the SSSP and meets the transactional and administration costs.

During the year 160,000 shares (2017: 160,000 shares) were acquired by the trustee of the plan on behalf of eligible employees under the SSSP at a cost of \$708,232 (2017: \$683,505). The loans to eligible employees are as disclosed in note 10b. The shares acquired by the trustee during the year had a market value of \$737,600 at \$4.61 per share as at 30 June 2018.

Any shares acquired are held in the name of the trustee and classified as Restricted Shares which cannot become Unrestricted Shares until the earlier of 3 years from the date of issue to the trustee or acquisition by the trustee or on the date that the employee's employment ceases with Milton. The trustee may transfer Unrestricted Shares to the participant provided that any outstanding loan has been repaid in full.
